

Local Charities

There are presently over 400 local and provincial charities who are participating in charitable gaming in Windsor and Tecumseh gaming centres. The charities in Windsor and Essex County are dependent on charitable gaming revenue as a welcomed addition to their annual income. In the tough economic times, where government funding has been reduced in many areas, additional funding for many projects and local programs are needed. The revenue generated by charitable gaming in our area, bridges the budget shortfall for charities, school groups, clubs and local associations.

Each gaming centre has a charity association and executive which represent the non profit groups at that specific location.

The members of these gaming centre associations, which volunteer in the Community Gaming & Entertainment Group of gaming centres, represent community clubs, children's groups, sports teams, local associations and local health care providers. Many provincial associations and programs also receive their funding from charitable gaming in Windsor and Tecumseh.

Please go to our charity listing page on each of the gaming centres and click on the charity you are interested in and if they have their own website you will be immediately taken to their home page.
